Friends: for 25 Years I have grown and sold seeds. My Catalog is filled from cover to cover with high-grade, tested seeds, sent out under a positive guarantee to please you. My Catalog is small. No flashy, lumberly pages for YOU to pay for. No extravagant prices to match the enormous expense of business done in the city.

Please Remember I am not a big, city seedsman, whose business is all done by disinterested clerks, knowing nothing and caring nothing about gardening. I personally, attend to your orders, and try honestly to serve you with the best.

You will not find in my Catalog, "store seeds" of all ages, and poorest quality, nor seeds saved from "scallions," and unsalable rubbish; but you WILL FIND only the best, carefully selected.

I thank You Friends one and all, for your liberal patronage and kind words. I only wish I deserved them more. I KNOW it is my earnest desire to prove myself worthy. A. T. COOK.

Important to You. Read Every Word Carefully.

WHAT I INTEND TO DO. 1st. Furnish the best home-grown tested seeds at a reasonable price. 2nd. Furnish large-size, well-filled packets, 3rd. Add many choice extras. 4th. Give you a liberal Discount or Premium on every order. 5th. Fill all orders promptly-boxing same securely and send EVERYTHING prepaid.

I GUARANTEE everything sent out by me to reach you in good condition, and will replace any that may be lost or injured on the way. I guarantee absolute satisfaction in all I offer, in so far that, should any prove otherwise, I will cheerfully refill order for the same gratis—thus I warrant everything but the crop, and by this sweeping guarantee make the purchase of my seeds by mail the safest investment possible.

TERMS. Remittances must accompany all orders. I keep no account's. I send no seeds on credit or commission. Order Sheet is in back of Cat. log.

REMIT the most convenient way—Postoffice or Ex-

press Order, Bank Draft or Registered Letter. I will take the risk by either of these good methods; letters very seldom get lost. You may select extra packets to pay cost of order or register. Postage-stamps taken when not convenient to remit otherwise.

ORDER EARLY. Please send in your orders early as possible—before the rush, while my stock is complete. I will have more time then, and you will be SURE to have the seeds on hand when needed.

PLEASE HAND out all extra Catalogs and Circulars to friends needing seeds, and BE SURE and mention it in your order; and I will remember your kindness.

VALUABLE EXTRAS FREE. A liberal number always added free to orders. A dollar order will have NOT LESS than 5 to 8 free packets. Larger orders many more. Show this to your friends who buy elsewhere and get but one or two extras—or none at all.

SPECIAL NOTICE. If any of my customers have purchased seeds of me that did not give satisfaction, will kindly mention it when ordering this season, I will be glad to give them anything they wish of equal value. This is a standing offer. It is my sincere wish to please in all cases, and I wish my friends to feel free to write if anything should have proved unreliable, for I will be only too glad to make it right.

FRIENDS, I am a farmer's son and followed the plow. I grew up among farmers and gardeners, and very early learned that high grade, selected seeds were absolutely necessary for the best success. I have followed seed-growing and seed-selling for 25 years, and think I know my business. I am in position to fill your orders promptly and with care. I will give you GOOD measure in BEST seeds. I have the VERY BEST mailing and shipping facilities. I am positive I can give you far better discounts, premiums, and more "extras" than you would get elsewhere. There is a reason for this. Your money does not go to pay for bulky catalogs, city clerks, and costly advertising. I am NOT a "city seedsman." I am situated on the banks of the beautiful Hudson river—among farmers and gardeners. My business shows that my seeds, and efforts to please, have both been a success, and are appreciated BY THOSE WHO KNOW WHAT GOOD SEEDS ARE.

Money Made, or Useful Premiums Earned Easily and Quickly.

Few indeed (who have not tried it) have any idea how easy, pleasant and profitable it is to get up clubs for my seeds. Your friends and neighbors buy seeds every year of some one, and they will be only too glad to give you their orders if you will but ask them.

Many Ladies desire to earn "pin money," and there never was an easier, pleasanter, or surer way to obtain plenty of it than this. Thousands send me large clubs every year, and you can do as well. All who try are absolutely sure of earning GOOD WAGES—or securing useful premiums without cost.

I wish my seeds introduced, and may never again make such liberal offers. Now is the time to get up your club. Please take my Catalog and circulars, and begin at once to take orders. I am sure your success will surprise you.

Remember every dollar you remit buys \$1.50 worth of ANYTHING in this Catalog. This liberal discount—greater than is given by any other seedsman, covers EVERYTHING offered—Seeds in packets and in bulk, Potatoes, Cinnamon Vines, etc.—there are no exceptions. Please tell all your friends, for no one can do as well elsewhere.

This great discount is made as an advertising experiment THIS YEAR. If my customers encourage my liberality, by ordering early, getting up clubs, and especially by telling their neighbors, etc., I will appreciate it greatly, and can continue it in the future.

Premiums. Many club-raisers prefer premiums; my terms are just as liberal here. I give a splendid Camera Solid Gold Fountain Pen—or a valuable, engraved Watch—free for a \$3.00 order.

Full description of these and other real bargains are on following pages.

BOYS AND GIRLS are among my most successful club-raisers. They always do well if they try. I sent them over 1,000 of my beautiful watches last year, besides many other premiums, to their great delight. Parents everywhere should encourage their children to get up clubs, for nothing could benefit them more than such practical business lessons.

The watch is really a wonder. I carry one myself, and the greatest wonder of all is how I can send so handsome a watch for a \$3.00 order. It is done to advertise my seeds, of course, and my customers get the benefit. I had rather give it to my friends than pay it to the newspapers. Do not miss this great chance. I will look for a large club from you—but send a club anyway, no matter how small. My packets are so large and well filled, and price so low for high-grade seeds, that your success must be certain.

It is especially easy to get orders for Packet Seeds—Potatoes, and Cinnamon Vines; always show these pages, and you are quite sure of good sized orders.

I ALWAYS ADD many new and valuable seeds gratis to orders, fill them promptly—deliver everything PREPAID, guarantee safe arrival and entire satisfaction. (They tell me no other seedsman gives away even half as many free "extras" with orders.) Tell this to your customers. See elsewhere for further particulars.

If you wish more catalogs and circulars to distribute I will send them gladly, and help you all I can; write for all you can use. I will look for your club; please do not disappoint me. With best wishes for your success I am Sincerely Yours, A. T. COOK.

Questions Answered, Hints, Instructions to Club Agents

Etc. Read Everything on This Page.

QUESTIONS ANSWERED. Friends, I am sure this Catalog contains all particulars and full explanations of everything pertaining to my seeds, premiums, getting up clubs, etc., etc. Read following remarks—also on opposite page, middle page, order sheet, and other places,—and you can make no mistake, and no time need be lost in writing, so go right ahead and not delay getting up your club. If however you find it necessary to write, be sure and send a self-addressed, stamped envelope—and write plainly with ink so I may give it my prompt, personal attention during the busy season.

THE BEST IN THE WORLD. I can only furnish the varieties of seeds, plants, etc., offered in this catalog. Extensive trials by myself in an experience of over 25 years, and also by the most critical gardeners in every section of the country prove them to be the very best that grow. I am a Specialist, and do not catalog the hundreds of worthless sorts. I had rather have the confidence of my friends. By having a short, select list, I am able to confine it solely to those of the highest excellence and give them the care required. All seeds are put up in extra large packets only. Friends I assure you I never intend to be a careless Seedsman.

REMITTANCE MUST accompany each and every order. I keep no books or bookkeeper, I don't do business that way. I NEVER sell on credit or commission or C. O. D. Don't ask it. It's an Old Fogy plan anyway. I could not give you half as good bargains as I do if I went to this useless expense. I never consign seeds to any one, therefore never have any old seeds returned. My seeds are always fresh and new, and are marvellously cheap for the prices asked. If you have no money get a friend to advance some a few days.

ORDERS FILLED PROMPTLY. Orders for seeds, premiums, etc., are always filled with the utmost promptness, but are sometimes delayed a few days in the mails. Don't be in too much haste to complain. Wait a little, and before you write ask your Postmaster to look well for your package, as they are often too large for the boxes and may be laid one side and overlooked. When you do write (which is seldom necessary) state what you ordered and when: also amount and in what way you remitted, so it can be easily traced.

LITTLE THINGS. Sign your name and address to every order. I have orders I cannot fill because I cannot guess where they go. Write plainly with ink, it may save mistakes. Don't cut up your Catalog. They cost money. Give the extra one to your friend and benefit him.

NO ORDER filled for less than the quantity stated. All packets are extra large, and have full directions. I have no half size packets. No order for potatoes filled for less than \$1.00—or of asparagus plants for less than 50 cts. as this much is needed for a good bed.

ALL CLUB ORDERS are sent direct to Agents. Put your name only on the order to save mistakes. (Should you wish part mailed to distant Postoffices, write such order, name and address on A SEPARATE SHEET.) \$3.00 clubs and under for premiums must be in one order. Larger clubs may be sent in two orders if necessary—but be sure and say in the first order that you are working for a premium. A HINT. Many Club Agents offer to take eggs, etc. in payment when parties have no money—and thus largely increase their orders. These are sold for cash at any grocery store. I deliver everything prepaid.

MISTAKES. With all my care I sometimes make mistakes: so does every one. I earnestly desire to correct every one here in this life—for I can never return to do it. If everything is not right please do me the kindness to write and explain—pleasantly if you can, but write anyway. Everything I send out is covered by three substantial warrants as stated on opposite page. You run no risk when dealing with me.

TO BOYS AND GIRLS. Don't think you cannot get up a club. It is easy. Read Johnny Lent's letter on another page. He is only 9 years old, and he got his \$6.00 club in one day, and got two splendid watches for his trouble. Begin to-day. You are as smart as the rest. Thousands of boys and girls have obtained valuable premiums—but the business lessons learned were more valuable still. All needed instructions are in this catalog. Do your best, and you will surely succeed beyond your fondest hopes.

IMPORTANT TO ALL—especially Club-raisers. Three packets for 25 cts. may be ordered of any 10c variety—even when a premium or regular discount is taken. Club Agents—mention this when taking orders.

TO MY CANADA CUSTOMERS. I have a large lot of Canada customers who have found my extremely early, hardy varieties admirably suited to their short seasons,—producing the most bountiful crops. I send everything by mail fully prepaid, but do not pay duty which is sometimes required on some of the goods. This however if any—will be but little. I always add free, enough Premiums and Extras to pay this several times over. Remit by Money Order —or by Registered Letter.

Canada currency or stamps taken same as U. S.

TO LADY CLUB AGENTS.

Ladies succeed the best of all. This year club raising will be far easier than ever.

Better still as a special favor I make my flower seed packets about 3 times the size other Seedsmen do. Nothing like them ever seen before. All are extra high grade. Everybody will want them. You have no idea how easy clubs are raised. Read Mrs. Stetsman's letter page 6. I could fill this book with letters from delighted patrons.

ON EVERYTHING. My Premiums or Discounts are ON EVERYTHING OFFERED. No other Seedsman does this. No other Seedsman gives as liberal premiums or as big discounts—or as large packets—or as many Novelties and extras free as I do. THIS is my way of advertising, and I know my friends who get the benefit will help me—as they always have in the past.

IF YOU CANNOT get up a club, please be kind enough to show this to some one who would like an elegant, Gold or Silver Watch, Camera, Sewing Machine, Bicycle, Organ, (or a pocket full of "pin money")—without costing one cent of money. I send everything prepaid and guarantee absolute satisfaction. The Premiums are all ready and waiting for your orders.

Specialties, Novelties, and Improved Varieties.

The following pages contain THE CREAM of all the varieties known to the American Seed Trade. They have been mostly grown and fully tested by me—as well as other critical gardeners in all sections of the country, and found to possess great value and merit.

I do not indulge in extravagant illustrations and descriptions, but desire above all that my catalog be plain, truthful, and honest; that my kind customers may not be deceived.

New Domestic Coffee Seed.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color, of old Java. Thousands pronounce it as good as the best store coffee. It is the poor man's friend.

It is the hardiest, easiest raised and most productive of any plant I ever saw. While growing it is a perfect sight to behold; fruits from the ground up, and on the limbs in every direction, the pods touching each other. See cut which does not exaggerate its wonderful productivity.

Thousands suffer untold injury from store coffee. Better grow the new kind at one-tenth its cost, and save your health—and \$10, to \$20, every year.

In the south two crops can be raised in a season. It is as easily raised as corn or beans; is cultivated in the same way; does well on all soils.

You can raise your own coffee for one cent a pound. Don't fail to plant a liberal quantity.

Ground and fed to milk cows it makes an abundance of the richest and yellowest butter ever seen. It makes a valuable and cheap poultry food—and is a remarkable egg producer. The Exp. Stations report that it has MORE THAN DOUBLE the feeding value of either corn or wheat, (and also recommend it very highly for coffee.) As a renovator of worn out land there is not a plant in existence that will compare with it.

Full directions on every packet. Prepare like other coffee and you will be surprised and delighted to find how good it is. My seed is GENUINE and true; extra early, and will be sure to ripen even in Canada. It is quite distinct from the late and worthless soya bean that some seedsmen are offering for coffee berry. Buy at Headquarters and avoid disappointment. I am glad to be able to make the following extremely low prices.

Price of Coffee Seed. Large packet 10 cts.; 3 for 25 cts.; 7 for 50 cts.; 15 for \$1.00; all prepaid.

I regret I have only room for the following among HUNDREDS of testimonials.

T. Greiner, the noted Author says:—I had rather use the NEW DOMESTIC COFFEE than the real article. It is very pleasing to my taste, and contains true nourishment. I will to use it right along.

B. B. Draughan, Monroe Co. Ala. says:—I am just delighted with your coffee, and send you \$1.00 for more. It is indeed wonderful.

R. E. Green, Mgr. Boise Irrigation Co. of Idaho writes:—I am much pleased with your Domestic Coffee. It is immeasurably superior to the average coffee that people use. It makes a drink fit at least for the lesser Gods. I enclose order for 200 packets.

The Christian Advocate says:—It is one of the most wonderful discoveries of the age; and comes very near the genuine.

A. I. Root, Publ. says:—The new coffee is a success, and preferable to the real coffee, because I think it more healthful. They will grow on any soil, and make a tremendous yield.

Miss Sarah Wilder, Genesee Co. Mich. writes:—The Coffee is extra good—better than I can buy here. I enclose another order for seeds, and watch as premium.

A. Wells, Washington Co. writes:—It makes fine coffee. I raised 2 crops last summer. I will plant a good lot this season.

Margaret Clark, Noble Co. Ohio, writes:—It is the nearest the genuine coffee of anything I ever tried, and is an enormous yielder. I am more than pleased with it. I have fooled many a visitor who supposed they were drinking real coffee.

Dr. J. M. Ashby, McLennan Co. Tex. writes:—Your new coffee is a great success. I can truthfully say it is better than the best coffee sold here at 30 cts. per lb. It is beyond description. Farmers flocked to see it and clamored for some seed.

BE SURE AND READ THE FOLLOWING FROM

PROF. W. H. MORSE, M. D., F. B. S. Sc.

Mr. A. T. Cook, DEAR SIR:—This is to certify that your new Domestic Coffee, upon being tested in the laboratory, evinces a highly nutritious character, a rich flavor, and a remarkably pleasant taste when roasted and pulverized, and treated for a beverage. It comes to the palate as a satisfying drink, fitted to sustain life. When carefully infused and drank hot, it produces an exhilarating effect, but does not fatigue the nerves or cause an unnatural influx of blood to the brain. The new Domestic Coffee Seed should command a large favor.

NEW VEGETABLE PEACHES.

Do not miss this remarkable novelty for I am sure you will be much pleased with it. Directions for growing—use of fruit, etc., on each pkt.

Mrs. B. F. Moore, N. Y. says:—They are better than peaches for pies and preserves.

enough for a family."

I have found this bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they **Are more than twice as productive as any other variety** in existence. They are a sight worth seeing: almost a solid mass of pods from the bottom to top of the pole.

The handsome green pods average 8 or 9 beans to the pod, grow very uniform, about 6 inches long; perfectly stringless, very thick meat, tender, rich and buttery; possess an exquisite flavor when cooked—many calling it without exception the very best bean grown. It is a late variety and continues in bearing so long it might well be called "everbearing."

I on y offer it in packets,

Packet 10 cts. 3 for 25 cts. 7 for 50 cts. 15 for \$1.00.

BE SURE AND READ THE FOLLOWING.

 Mr. A. T. Cook. Your Powell Pole Beans are **WONDERFULLY prolific**. I never saw anything to compare with them.

From 16 hills we sold \$7.65 worth and had all we could eat. I verily believe the hills would have paid 75 cts. each, had all been sold. You cannot over-recommend this **MONEY-MAKER**. You should say in your catalog that an ordinary pole will not stand up under the load of beans. We had to prop up nearly every pole. This year will use heavy poles and trellis wire. A. J. Packard, Saco, Me.

S. E. Gwinn, Fayette C. W. Va. writes:—From 6 vines of the Prolific Beans I sold 3 bushels—a 1 muly of 9 eat from them liberally, and there is still a bushel on the vines. I never saw anything to compare with them. All your seeds done well.

Amy Thompson, Gallia Co. O. writes:—I raised 1800 Powell Beans on one vine; which was the greatest yield I ever saw.

Mrs. C. E. Lissford, Kinards, S. C. writes:—From 5 vines we ate beans all summer, and then gathered over one-half gallon of seed. They were the admiration of the neighborhood: I have picked a full mess of beans for dinner, without changing position at the vine. Our summer was dry, but the vines continued green and bearing, while all other kinds of beans dried up; they are the best bean I ever saw grow, and I cannot command words to express the true value of such a garden treasure.

Mr. A. T. Cook. Your Powell beans were the grandest I ever saw.

FROM 5 HILLS WE PICKED 5 BUSHELS. They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds, and especially so with the extras.

Mrs. J. J. Steward, Monongalia Co. W. Va.

World Famous Prizetaker Onion.

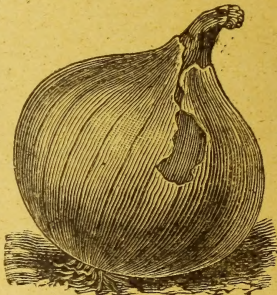

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELLED EVEN BY THE BERMUDA VARIETIES.

This is without exception, the grandest variety of yellow globe onion grown for our American climate. It is the largest, handsomest, finest flavored, and in every way **THE BEST**. It is admittedly the **LARGEST** of all varieties; samples have been grown to the enormous weight of

Over 5 Pounds Each.

With good culture it produces wonderful crops everywhere; one reports "over 1200 bushels per acre;" another says "I grew 180 bushels on exactly one-sixth of an acre."

**Excels in Yield,
Excels in Size,
Excels in Quality,
Excels in Beauty.**

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. It is certain y a wonder, and nothing short of an actual trial will convey an idea of its great value. Don't miss it. Remember my seed is American grown, carefully selected and pure.  Beware of cheap onion seed. Per Pkt. 10 cts. 3 for 25c.

H. W. Bowie, Gray, Maine, writes:—Mr. A. T. Cook. Your onion seed produced the best onions I ever saw.

Wm. M. Russell writes:—The extras you sent were most bountiful. The Prizetaker onions were up in 5 days.

 **WHY NOT** encourage your boys and girls to grow plants for sale. There is no **EASIER** way to get a pocket of pin money, (except in getting up clubs for my seeds.) Let them plant a good lot of tomato, cabbage, celery, pepper, lettuce, asparagus, pan ies, cauliflower, egg-plant, etc. Care for them well, and paint a sign and hang by the front gate—and they will soon be taking in money, and learning business faster than they ever did before in their life. Heed this friendly hint, for it will pay you in more ways than one.

AND EVERYBODY WHO WANTS A POCKET OF PIN MONEY.

Mrs. E. E. Stedman, Washington Co. N. Y. writes:—I saw your offer of a watch and took your catalog at once and started out, and in a very short time I got up the club. As I had done so well I thought I would try and sell some more seeds and earn some money. In a few hours I obtained \$20.00 worth of orders. I have a nice watch and a good lot of pin money for my trouble. Let others do likewise.

This is the first time I have tried club raising, and I have enjoyed it very much, and wish to thank you heartily for giving women and children such a chance to earn money needed for many things.

POWELL'S PROLIFIC POLE BEAN.

This wonderful new variety, (first introduced by me,) originated in North Carolina—a few seeds were kindly sent me for trial by Prof. R. S. POWELL, who writes:—They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and palatable—six hills are

In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. "There is no unbelief;

MY SUPERIOR SEED is the very best I can grow or get. None are cheaper **QUALITY** considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of crops. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the value of high grade seeds. I have in the past, do now, and always will maintain this high standard.

A Wonder Among Cucumbers.**Extra Long Green Giant Cucumber.**

A veritable giant among Cucumbers, and merits the highest praise. Enormously large and handsome, many specimens growing from 20 to 30 inches in length. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, (not one-fourth as many as other sorts) quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.

Packet 10 cts. 3 for 25 cts.

"The Green Giant Cucumbers were splendid. My neighbors were astonished at their great length. One measured 23 inches."

Lulu Williams. Westville, I. T.

"The Long Green Giant Cucumbers were grand, and of immense size. They were the wonder of the community. 7 left for seed were all over 13 inches in length. Your Short Stem Drumhead Cabbage, Powells Beans and Coffee Berries were worthy of especial praise."

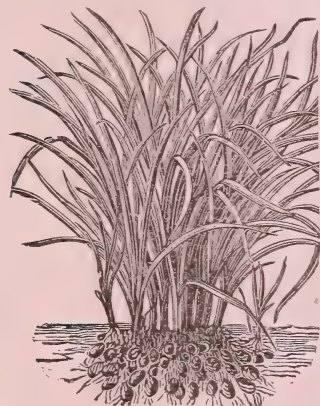

Mrs. Emma Wilhede, Lantz, Md.

CHUFAS, OR EARTH ALMONDS.

These very closely resemble in sweetness and richness of flavor a cocoanut or almond. Children are very fond of them, and each one should have a chufa patch. They are much grown in the South to fatten swine, poultry, etc. They succeed perfectly at the North, my plants yielding from 300 to 600 fine, large chufas each.

They are a rich and healthy food for poultry of all kinds. Directions for planting, etc., on each packet. Pkt 10 cts.

ARTHUR HORTON, of Ponce, Neb., writes: "The chufas I got of you are all you claim. I raised over a half bushel from one packet. They are delicious eating."

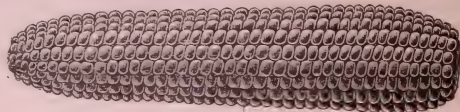

**Protect The Birds.**

Protect the Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They work for us, and sing for us from morning till night. They are God's own messengers of love. They fill our homes, our meadows, and the woods with Heavenly music. Do all you can to encourage them by precept and example. Put up houses for the wrens and blue birds. It will pay. Feed the birds in winter. I feed them every day, and they come from far and near. It is a delight to see them. I am sure no Lady customer of mine will be guilty of the cruelty of wearing birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice.

A. T. Cook.

EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with light colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

erell of Davenport, Iowa says "I selected 10 stalks on my farm with 121 ears, or an average of 12 ears to the stalk; one stalk had 19 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and delicious flavor; 3 pints will make 1 bushel popped. You can raise 100 bushels of ears on an acre. Be sure and include this Pop Corn in your order. Pop Corn is a great money crop. Choice seed, genuine, packet 10 cts., 3 for 25 cts. 15 for \$1.00.

**New Stringless Green Pod Bush Bean.**

This is an ideal string bean. Absolutely unrivalled. For home use or market no other green podded bean can equal it. It combines the chief merits of all others; extreme earliness, unusual hardiness and wonderful productiveness. Pods are very handsome and finest quality—the flavor being most delicious. It is so hardy it withstands considerable frost. Pods are rich green, round, straight, 6 inches long, of unsurpassed tenderness and quality. Always entirely stringless and without exception the very earliest of all beans. Packet 10 cts., 3 for 25c., 7 for 50 cts.

MONEY IN POP CORN CROWING.

I PLANT
POP CORN
AND MAKE
BIG MONEY.
SO CAN YOU.

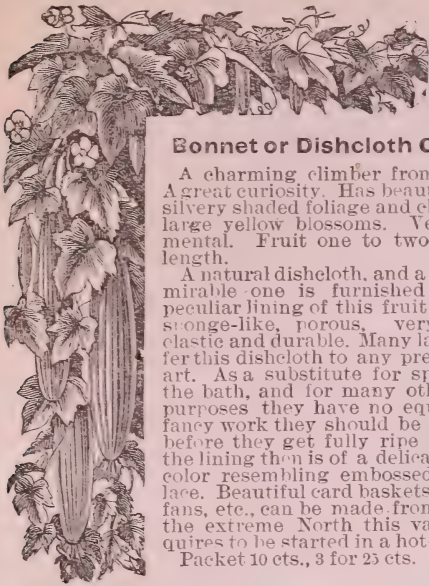

Pop corn is a great money crop. Give your Boys and Girls a chance to grow a lot and make money. It will pay in more ways than one. If well cared for and soil is good, 100 bushels of my productive varieties will easily grow on one acre.

Almost the first money I made when a boy was in growing and selling Pop Corn. My varieties being so easily grown and produce such immense crops makes them especially profitable for market. They always bring good prices. This is well worth looking after. If you have no boys or girls plant a patch yourself and report result.

S. G. CAMPBELL, Tappan, O., writes: Mr. A. T. Cook.—Last Spring I got three packets of Pop Corn from you, and I raised 31-2 bushels, sold 21-2 bushels for \$3.75 have 1-2 bu. to sell yet, and enough left for winter.

W. L. ANDERSON, Ind., says:—Last year I planted 1-4 acre of Pop Corn and husked 26 bushels, a yield of 154 bushels per acre. I sold it for \$1.00 per bushel. The corn required no more labor than common field corn.

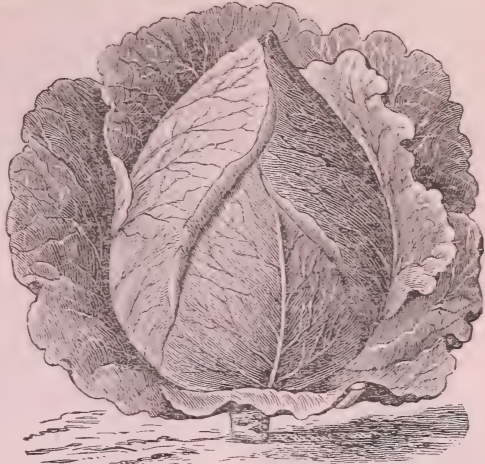

Bonnet or Dishcloth Courd.

A charming climber from Japan. A great curiosity. Has beautiful dark silvery shaded foliage and clusters of large yellow blossoms. Very ornamental. Fruit one to two feet in length.

A natural dishcloth, and a most admirable one is furnished by the peculiar lining of this fruit which is sponge-like, porous, very tough, elastic and durable. Many ladies prefer this dishcloth to any prepared by art. As a substitute for sponges in the bath, and for many other toilet purposes they have no equal. For fancy work they should be gathered before they get fully ripe and dry; the lining then is of a delicate cream color resembling embossed antique lace. Beautiful card baskets, bonnets fans, etc., can be made from it. In the extreme North this variety requires to be started in a hot-bed.

Packet 10 cts., 3 for 25 cts.

EARLY WINNICSTADT CABBAGE.

A well known and very popular variety, heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure header, a good shipper, and suffers less from the cabbage worm than any other sort; valuable for both summer or winter use. Market Gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed.

Beware of cheap Cabbage seed, which is often grown from stumps and unsalable rubbish. Pkt. 5 cts.

"I will always buy your seeds. You always give such good seeds and such large packets. Your Winnicstadt Cabbage is the best early Cabbage raised. Kind wishes to you."

Mrs. Geo. T. Williams, West Milford, N. J.

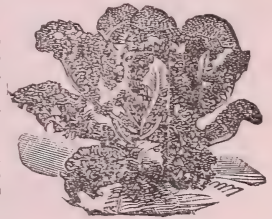

"Your Cabbage is the best I ever raised. Your seeds are all just splendid." Mrs. E. J. Howard, Grief, Tenn.

"I raised a garden full of Cabbage from your seed last year. It was the finest cabbage I ever saw. My nabobs failed to raise any at all, and I told them they should have planted Cook's selected seeds." P. R. Hurn, Wash Co. Ark.

Dwarf German Kale.

Kale or German greens has pretty curled leaves that are very ornamental and highly prized as food.

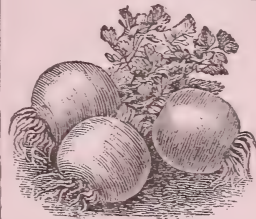

Kale is easily grown, and harder than any cabbage. Very tender and delicate, would be generally grown if its excellent qualities were known. Plant same as cabbage. Packet 5 cts.

Giant Celeriac.

A turnip-rooted Celery, used for flavoring soups etc., also cooked and sliced and used with vinegar making a most excellent salad. Easily grown. Culture same as celery—but requires no banking. Very healthful, and should be more largely planted.

Packet 5 cts. 6 for 25 cts.

The Foot-Path to Peace.

To be glad of life, because it gives you the chance to love and to work and to play and to look up at the stars; to be satisfied with your possessions, but not contented with yourself until you have made the best of them; to despise nothing in the world except falsehood and meanness, and to fear nothing except cowardice; to be governed by your admirations rather than by your disgusts; to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; to think seldom of your enemies, often of your friends, and every day of Christ; and to spend as much time as you can, with body and with spirit, in God's out-of-doors—these are little guide-posts on the foot-path to peace.

Henry van Dyke—in the "Outlook."

MARKET GARDENER'S BEET.

Undoubtedly one of the best novelties ever offered, and it receives much praise from my customers. It is very symmetrical with small tap root and unusually small tops. One sowing only is necessary to produce early beets for market and main crop for winter use. By the 1st of October they measure 6 to 8 inches in diameter and average 5 lbs. each. Color deep blood red; fine grained and unsurpassed in quality. Summing it all up, I find it a good beet for early

and the best beet for winter use. It is one of the most profitable beets for the market garden, and family use. Packet 5 cts., 6 for 25 cts.

tion of beans really is. The pods are long, brittle, and ENTIRELY STRINGLESS; of the richest golden wax color, and borne in the most marvelous profusion.

Its prodigious yielding qualities almost surpasses belief. Deliciously tender, rich and buttery. Unexcelled both as a snap bean and a shell bean for winter use. The plants are extra robust and hardy, grow very uniform, are absolutely healthy—the beans never have been known to rust or blight in the least. This fact alone is of the utmost value and places this famous bean far in advance of others. It stands unique and alone on the pinnacle of perfection. Whatever other good things you overlook in this catalog—do not miss planting these beans. Extra large packet, 10c. 3 for 25c.

Teach Children to Love Flowers.

Lovers of flowers are lovers of goodness and purity. Teach the boys as well as the girls: they will love their home better, and be more likely to shun the deadly, soul-destroying saloon, and other vices. Surround your cottage with flowers and vines. Let beautiful blossoms greet the eyes on every side, let their fragrance drift in the open doors and windows. It will pay an hundred fold. Flowers are little missionaries sent by God to teach us beauty, purity and innocence. Their influence is always good.

New Early Champion Peanut.

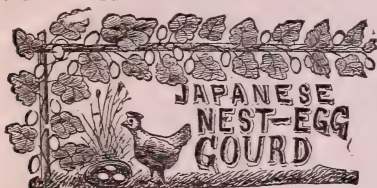

This mammoth new Extra Early Peanut is the crowning triumph of a careful Specialist, and in size, quality and yield will far surpass any other sort. It is a sur-

prising yielder, having produced 100 bushels per acre. It is so early and such a robust grower that good crops have been harvested even in Vermont and Canada. Don't fail to try it—and every boy and girl should have a bed of Peanuts in their garden. Full directions for planting etc. on every packet. Pkt. 10 cts. 3 for 25 cts.

Japanese Nest-Egg Gourd.

This new and beautiful variety, varies in size from a pigeon's egg up to a goose egg, but mostly the size of

hens eggs and so exactly the shape and color, as to almost deceive the eye. The shells are hard and durable, and make the very best nest-eggs, as they neither freeze

or crack. The Nest-Egg Gourd is a rapid and desirable climber; quickly covering old sheds or any unsightly object with a mass of green foliage, thickly dotted with beautiful white eggs. Boys you can make lots of money growing this gourd, and selling them to your nabors for nest-eggs. Pkt. 10 cts.

White Plume, Self Blanching Celery.

THE EARLIEST VARIETY.

This is the best of the so called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10 cts.

My Great Sewing Machine Premium.

Rockcreek, Oregon, Aug. 21, 1901.
A. T. Cook, Dear Sir:—"Last January, wife and I got a \$30.00 order for your seeds in 10 days, and received a fine, Drop Head, 5 Drawer Sewing Machine with full set of attachments, as a Premium. It is equal to any of the machines sold around here from \$25.00 to \$45.00 each. We have bought seeds from different firms and find yours good as the best. Yours Truly, Geo. A. Fisher.

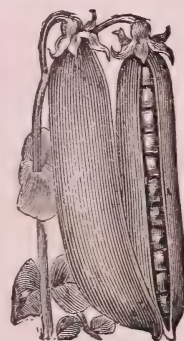

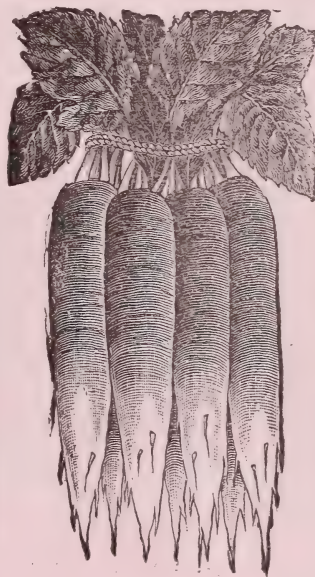

This year I give this elegant Sewing Machine free for a \$20.00 order for anything in my catalog. It is the most wonderful bargain ever heard of. Why not get one also?—or assist some poor woman to obtain one? It is easy. Begin to-day. Everything is guaranteed.

Jackson Wonder Bush Lima Bean.

Here is "something new under the sun." A wonder indeed. It is a combination snap and lima (or butter) bean, grows about two feet high, and is immensely pro-

ductive—7 quarts having been grown from 25 seeds. When pods are young they make excellent snap beans, and later are shelled and used same as other limas. Their flavor is very rich and delicious. They are extremely early, and continue in bearing until frost. None but favorable reports have been received. Pkt. 10 cts.

**Early Premium Gem Peas.**

A superb extra early wrinkled variety of delicious quality. Pods large, long, well filled, and vines marvelously productive, being loaded down with lucious peas. The best, the sweetest, and hardiest of all. Pkt. 10c. 3 for 25c.

New Chartier Radish.

This valuable introduction is far superior to any long variety now in cultivation. In quality and flavor unsurpassed; early, handsome, unusually crisp, tender and juicy; and remains in good condition a long time.

Pkt. 5 cents.

J. W. Allbritten, Houston Co, Texas writes:—I raised one Chartier Radish from your seed 17 in. long and 26 in. in circumference.

G. E. Russell, Leon Co, Fla. writes:—I raised one of your Chartier Radishes 2 ft. 9 in. long, and 17 in. around. I never saw the beat. Your Short Stem Cabbage cannot be excelled. I can say your seeds GROW, and you give more and better seeds than can be had elsewhere.

**CLUB AGENTS**

should always mention the free packets of choice Novelties etc., that customers get with every order. They are of great value, and are given with Potato, Cinnamon Vine, orders as well as seeds.

Mention also the special offer of Silver Watches and Premium Seeds given for largest yield of Potatoes; longest Cinnamon Vine; best yield of Powell Beans; largest Short-stem Cabbage and Mammoth Pumpkin, for everybody will want to try these famous Novelties. Please not forget.

Henderson's New Bush Lima Beans.
Prodigiously Prolific. True Lima Flavor.

Think of raising Limas without poles! They grow 18 inches high, in a compact bush form, and produce enormous crops of delicious Lima Beans; (a single plant has produced 270 pods.) The beans are the size of the Sieva or small Lima, and of delicious quality. Thrives in any garden from Canada to Texas. It is two weeks earlier than the common Lima, and continues in bearing the entire season. Packet 10 cts. 3 for 25c.

I had the finest tomatoes from your seed I ever saw. One Monster Ignomum weighed two pounds and 14 ounces. H. B. Wallis, Columbia Co. Ark.

Mammoth Ignomum Tomato.

All should plant the new Ignomum Tomato. A "priceless paragon" in the Tomato line. The earliest extra LARGE tomato. The most valuable large tomato ever introduced. It will wipe out fifty old sorts at a sweep. Bright red color, always smooth and solid, uniformly LARGE size. Why grow a poor sort when you can have such a variety as this? Beware of cheap Tomato seed which is often the vile product of waste from Canning Factories. My seed is carefully grown and selected. Packet 10 cts. 3 for 25 cts.

The Ignomum Tomato is best we ever had. I did not think it could equal your description—but a trial proves it really does.

John Erwin, Harrison Co. Ohio.

From a careful test of 45 different varieties I find the Ignomum the best of all.

J. Gregory, Essex Co. Mass.

A 9 year old Club Raiser.

Mr. A. T. Cook:—I am very much pleased with my watches. I gave one to brother. I am only 9 years old and got up my \$6.00 club in one day. Any boy or girl can have a nice watch if they only try. I will get up a much larger club next year. Papa is much pleased with his seeds. J. Lent, Hopewell, N.Y.

Extra Early Purple Top Milan Turnip.

The earliest in cultivation, adapted to spring or fall. It is fully one week earlier than any other sort, and of superior quality. The bulb is flat, medium size, smooth, with a bright purple top; leaves few. The pure ivory-white flesh is of the choicest quality, solid, and fine grained. Very mild and sweet. A good keeper. Of great value to all private and market gardens. Pkt. 10c.

New Golden Honey Watermelon.

A Novelty of Extraordinary Merit.

Decidedly the Very Sweetest of All.

Without doubt one of the best watermelons ever placed before the American public. It is a very early melon. The flesh is of a deep, rich, golden color, and in delicious sweetness and exquisite quality reminds one of honey. In a crop of 20 acres grown especially

Extra Quality.

for seed, every melon was juicy, melting and delicious. It is of large size for such an extremely early melon, enormously productive, flesh firm, solid and luscious beyond description. Many who fail in growing other melons can succeed with this. No one should fail to plant the Golden Honey in their family gardens. It stands unique and alone. W. Ferrier, Canada, writes: "Your new Golden Honey Watermelons are simply grand. I never saw their equal. They are the only melons I ever made a success in growing. Your seeds are the best I have ever sown, and your catalog is honest."

Selected seed, pure, packet 20c. 3 for 50c. 7 for \$1.00.

Golden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dairy use. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of all other varieties. It contains a large percentage of sugar and is much relished by milch cows and sheep. One of the best of keepers. Farmers should give root crops more attention. The wonderful results of feeding roots are plainly seen in the health and condition of the animals, and in the greatly increased yield of milk and rich, golden butter in cows. Do not miss planting a good size patch. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 5 cts. each, 6 for 25 cts. 30 for \$1.00.

Improved Purple Top Yellow Rutabaga.

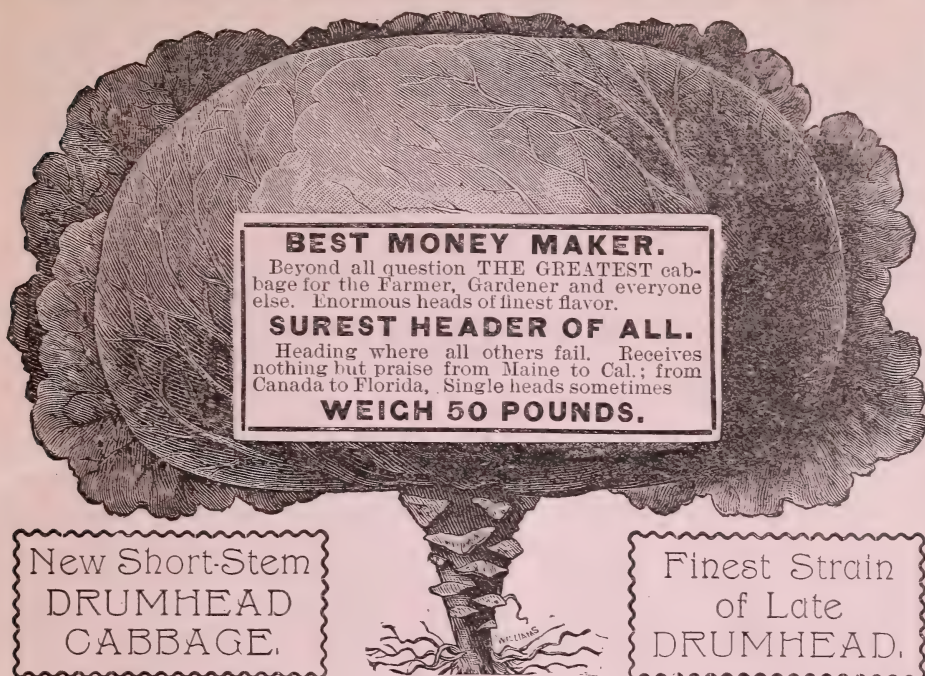

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is of the choicest quality, and full of nourishment; very solid, of a beautiful orange color, with a handsome purple top. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

Head.

This peerless New Short-Stem Drumhead, combines, to a wonderful degree, all desirable requisites. It has a very short stem and grows very compactly. The heads are EXTRA HARD, SOLID, round, flattened on the top. They grow very uniform in size and shape and present the appearance so well depicted in the above illustration. The heads often attain 20 to 30 pounds in weight, and are always of the finest quality. For reliability of heading, this variety is, from long continued selection, also remarkable. From each 100 plants set out, at least 98 large, solid heads may confidently be expected. I believe this to be the finest Cabbage in existence to-day—the surest grower and header. It will produce a crop even where others fail. Friends, if you order but 3 things from this Catalog I hope one will be this great cabbage. Selected seed, pure and true. Packet 10c., 3 for 25c., 15 for \$1.

F. B. HALL, Bunker Hill, Maine, writes:—"I raised 10 tons Short Stems from 1,500 plants. Every seed grows. This cabbage is best of all, and a wonderful seller."

DR. J. M. ASHLEY, of Texas, writes:—"Oh, goodness! what cabbage I did make from your Short Stem Drumhead; all that saw them were almost thunderstruck."

MRS. A. M. TREFFRY, Burnside, Canada.—"We never had better vegetables than we grew from your seeds. Our Short Stem Cabbage, after the stems and leaves were taken off, weighed 23 lbs. The Snowball Cauliflower heads were as large as a good sized milk pan. They were a wonder to all beholders."

NORMAN SAMPSON, Walton, Mich.—"Your Short Stem Drum was the best cabbage I ever raised in my life. I have ordered seeds of different seedsmen but none produce like yours, and no one gives so many nice extras."

JOHN A. RUTLEDGE, Pa., says:—"Your Short Stem Cabbage

was the best I ever grew. EVERY ONE made a nice head. The neighbors were surprised, and thought you made a mistake sending them so many extras. They said that every seed grew."

\$10.00 Given Away.

To the person growing the heaviest Short Stem Cabbage from my seed, I will give \$5.00 worth of seeds, \$3.00 worth for next largest, and \$2.00 for third. Send in reports by Nov. 15.

NEW VARIEGATED POP CORN—Ears Red, White, and Blue Colors Blended.

"Your Variegated Pop Corn beats the world. I grew 3 bushels from one packet of seed. It took the first prize at the Union Fair at Wethers, Canada."

C. H. Jenks, Buffalo, N. Y.

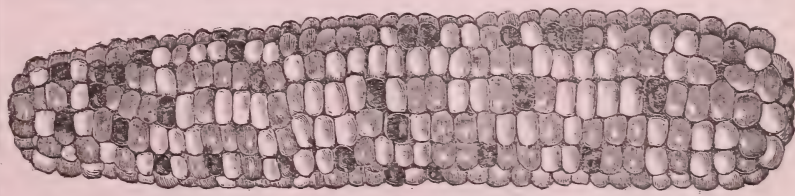

"Your Variegated Pop Corn took the first prize at our Fair. All your seeds grew well. I thank you ever so much for all the extras." M. Jensen, Wis.

"Everybody is delighted with the Variegated Pop Corn, and want it to hang in their parlors for ornaments." G. A. Bonnell, Waterloo, N. Y.

"The Variegated Pop Corn is a great novelty, and did splendidly. I will surely plant it for market next spring."

F. Babcock, N. H. Co. Conn.

Never before has such a beautiful Pop Corn been offered as this superb variety first introduced by me. Indeed the ears are so handsome they are often used for parlor ornaments. It is VERY EARLY, immensely productive, 3 to 6 ears or more on a stalk, a splendid popper, bursting out very large, white as snow; tender and

VARIEGATED POP CORN. EARS ONE-HALF AVERAGE SIZE.

delicious. It will produce 100 bushels of ears on an acre. The ears are of good size, and beautifully variegated, bright red, white, and blue colors mixed and blended. Words utterly fail to describe its beauty and attractiveness. It is beyond all comparison the handsomest Pop Corn ever seen, and will be sure to secure prizes at your Fair. Boys and Girls, as well as older ones, can get a nice income growing this corn for market. It is a real money-maker, and always sells at fancy prices. Plant a good sized patch and take my word there is big money in it, and I want you to get your share.

Early Thoroughbred Potato.

THE BEST IN THE WORLD.
A TREMENDOUS YIELDER.

 **Here is the Proof**—The following chemical analysis of the remarkable Thoro'bred Potatoes (by one of the highest authorities in the U. S.) shows WHY they are so FAR SUPERIOR to others for table use, also proving their hardness and wonderful yield, even under very unfavorable conditions.

Westfield, N. J., Feb. 22nd, 1900.

Mr. A. T. Cook.

My Dear Sir:—I want to say that the potatoes with which I obtained such notable results last season were the Early Thoro'bred obtained from you. I could not obtain like satisfactory results with any other potatoes. In fact, had I not had yours, I might as well have given up the experiment.

I asked myself with astonishment, as soon as I began to dig—"what CAN be the reason?" Side by side with the rows of other potatoes, highly fertilized with stable manure, sulphate and muriate of potash, and other fertilizers, your rows grew without a particle of fertilizer. When the Thoro'breeds were dug, their yield led by 28 per cent over the others.

Here is the analysis of the Thoro'bred in comparison with the ordinary composition of the potato tuber:

	ORDINARY.	THORO'BREDS.
Water.	75	70
Nitrogenous matter,	2.1	0.9
Salts,	0.7	0.2
Fat,	0.2	4.9
Sugar,	3.2	21
Starch,	18.8	

Other potatoes grown without fertilizer, amounted to almost nothing (40 per cent of a crop.) I wonder though, what the crop of yours would have been had I

been prodigal with the manure. Sincerely Yours,

WILLARD H. MORSE, M. D., F. B. S. Se.

Consulting Chemist and Therapist, Am. Director of the Bureau of Materia Medica. Fellow of Society of Science (London.)

Mr. A. T. Cook, Dear Sir:—I must thank you for all your good seed, and the liberal quantity you sent me last spring. From \$1.00 worth of Thoro'bred Potato Eyes I grew 866 pounds—over Fourteen Bushels of the best and finest potatoes I ever saw. BROAD LEAVED SAGE.

Sage is most extensively used of all herbs for seasoning. The leaves and tender tops are used in stuffing, sauces, etc. Sage has many medical properties. Sow early, and thin to 12 inches. Packet 5 cts.

Select Surehead CABBAGE.

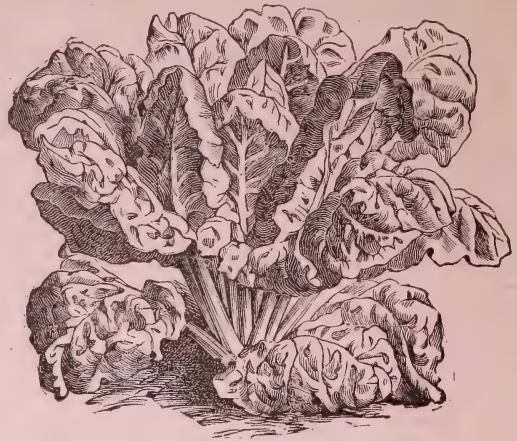

"ALL HEAD. AND ALWAYS SURE TO HEAD."

This magnificent cabbage is a most valuable contribution to horticulture. The heads are very large,

round, flattened on top, remarkably uniform, extra hard firm and fine texture. May be planted closer than usual as it has so few outside leaves.

This makes it especially profitable to grow. A. Rose of Yates Co. N. Y. grew a head of this remarkable Cabbage of the astonishing weight of 61½ lbs.

If you want a cabbage that is practically "all head, and always sure to head" (even under adverse conditions) you will find it in the Surehead. It is a late variety, and one of the very best of keepers. Its extra quality renders it especially desirable for Home use, and select retail trade. Extra Selected Seed—saved from the best heads. Pkt. 10 cts. 3 for 25 cts. 15 for \$1.00.

THE ASPARAGUS BEET.

This delicious species (also called Sea Kale, or Swiss Chard) is grown for its leaves only. The leaves are used like spinach, but the great value of the plant is its large, fleshy, mid-rib of the leaves which are cut and cooked like asparagus, and are EXTRA FINE. As a substitute for asparagus nothing could be better. Ready to use in 2 months from planting and may be used continuously all summer and fall. It is a most valuable vegetable—too good a thing to miss, and I hope every one of my customers will plant it. Pkt. 5c.

The Brown Beauty grows medium to large size, bulbs very thick, beautiful clear amber brown color, flesh mild, pleasant, and agreeable. Its earliness is remarkable.

able, ripening fully 3 or 4 weeks before the Red Wethersfield. This feature is of the greatest value.

Owing to its extreme earliness and handsome appearance it commands extra prices. Its keeping qualities are marvellous. No other compares with it. It will keep over into the second year. This new onion is distinct from all others, will surely please. It has been well tested in every state, and everywhere pronounced a wonder. I trust my friends will all try it. The Icicle is truly delicious, and continues brittle, crisp, and tender for a long time. This is a real jewel. Pkt. 10 cts. 3 for 25 cts.

True Chicago Pickle.

This specialty has become a standard variety, and is undoubtedly the best Cucumber for pickles, and is used almost exclusively by the most progressive pickle factories. The fruit is of medium length, pointed at both ends, with large and prominent spines; color deep green; begins to set its fruit when the vines are quite young. It is a continuous bearer, and its productive qualities simply marvellous. I have a very choice strain of seed. Packet 10 cts. 3 for 25c. 15 for \$1.00.

NEW EXTRA EARLY BEET.

After a careful trial for several seasons, I am glad to offer this new variety as one of almost inestimable value. How many of my Market Gardening friends believe that there is anywhere in existence a nice, smooth, garden beet, of deep red color, which will produce roots of suitable size for market TEN DAYS in advance of the old early sorts. Well friends this variety does that very thing; I was incredulous until I planted the seeds and tested them side by side, and watching their growth almost daily, saw a finely formed root develop on every plant of this new variety, before other early kinds began to bottom. The flesh is delicate, rich, and sugary; very fine grained. It is in every way an ideal Table Beet. Every garden should contain it. Young plants make splendid greens. Packet 10 cts. 3 for 25 cts. 7 for 50 cts. 15 for \$1.00.

New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and its wonderful keeping qualities. The melons weigh from 8 to 12 lbs. each. It is a most valuable novelty. These

splendid melons do not ripen on the vines like other muskmelons, but have to be picked in a green state, before frost, lain away in a cool, dry place where they will keep sound and sweet for several months. When wanted for use bring them in a warm room, where they will ripen in a few days and be ready to eat.

The flesh is unusually thick, solid, and melting; a light green color and has the most delightful flavor imaginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

The Artist, (Mr. Blanc, of Phila.) who has made engravings of, and tasted nearly all the new melons introduced in the past ten years, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten." Large Packet 10 cts., 3 for 25 cts.

Everblooming Petunias.

 ALSO AN ELEGANT POT PLANT.

I desire to call attention to these entrancingly lovely flowers. They are a superb mixture of wondrous beauty—over 40 varieties. They comprise an endless assortment of colors, shades, and markings. The Petunia is the "Peoples Flower." They will bloom in a month or so after planting, and will continue to produce a perfect cloud of brilliant blossoms until hard frost. No one who loves flowers should fail to plant them. Pkt. 10c. 3 for 25c.

Mr. A. T. Cook:—Your Petunias were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. In the fall they were taken into the house, and they have bloomed continuously all winter. Mrs. C. C. ALFORD, Mass.

Don't ask for Tobacco Seed. I cannot sell it. It only injures people. It debases their minds—defiles their bodies, and wastes their money. Don't help along the miserable business. Plant something useful and **you** will sleep better,

Giant Pascal Celery.

This is without doubt the best general purpose celery ever introduced. It is everywhere a success. The stalks are remarkably large thick and solid; entirely stringless with a golden heart, very crisp and brittle, rich, nutty flavor. It blanches VERY EASILY and quickly, requiring but little earthing up; a most vigorous grower—succeeding well under almost all conditions. It seldom rusts or rots and is most excellent for shipping. Every market and private gardener should grow it largely. Celery and Celery Plants are money crops. Almost incredible profits are often realized from a small piece of land.

Plant the Giant Pascal and White Plume and your success will be sure. Selected seed per pkt. 10c. 3 for 25c.

summer, fall and winter. Some Faxons are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep orange cavity small. Nothing excels it for pies. I consider the Faxon decidedly the best of all squashes. Many who never could eat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. Pkt. 10 cts. 3 for 25c.

"There's not a tint that paints the rose,
Or decks the lily fair,
Or streaks the humblest flower that grows,
But God has placed it there."

O Dear! O Dear! we did not plant Cook's seeds this year and what a drefful looking garden we have got. We might have known better than to buy City seeds anyway. We will always buy of A. T. Cook, after this, for his seeds are always good.

Colorado Preserving Citron.

This is quite distinct from the ordinary citron, the seeds being a light green color. It is immensely productive; one vine produced 25 fine melons, weighing from 10 to 30 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surpassingly fine flavor. Pkt. 5 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. It is hardly necessary to

describe this variety at all, as its name has become a household word wherever this delicious vegetable is grown. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right; is good the entire season, and is rapidly driving out the latter sorts for fall use. Cauliflowers are

easily raised and every family should grow a supply.

My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts.

New Palmetto Asparagus.

BEST IN THE WORLD.

This new variety is the finest ever cultivated in this country. After six years trial in nearly all sections, it

It is remarkably tender, rich and buttery when cooked, and very free from any tough or woody fiber. Every family should have a supply of this healthful and delicious vegetable, and I am sure all would, if it were known how easily and quickly it is grown.

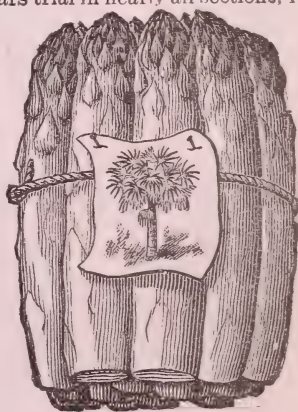

My seed is genuine "Palmetto," pure and true. Cultural directions on every packet.

Little Gem is sweetest and best of all flowers for single specimens, borders, ribbons, etc., and might well have been called "Snow White Carpet Plant." Of the easiest culture. Do not forget this favorite, fragrant flower when you order.

Very Choice Seed, only 5 cts. per pkt. 6 for 25 cts.

Be Sure and read the following from H. A. Mc Quiston, Pansy Specialist of Preble Co., O.

"Mr. A. T. Cook:—I have used the best Pansy Seed of many leading seedsmen, and yours clearly surpass them all in vigor of plants, size and number of blossoms, and great diversity of color. Everyone greets them with words of praise and astonishment. It is no trouble to sell plants from your seeds—they sell themselves."

From Miss Mary Nesbit, Pa. "I had the loveliest of flower beds from your seed, and lots of people walked two miles to get a bouquet. Many city boarders came and purchased flowers. The Sweet Peas, Sweet Williams, and Verbenas were especially beautiful. I cannot thank you enough for the extras. My Aunt said, 'I have seen people get extras, but I never saw the like of this man before.'"

I invite all to Get up Clubs.

They can be potted in the fall and will continue to bloom profusely in the house all the winter. Words cannot describe these magnificent Carnations. Growing new sorts from the seed-ball seed is a very interesting employment for old or young. There is the widest range of difference in color, shape and general characteristics between the different seedlings; every one is more or less unlike every other. Great success has already attended the attempt to improve this valuable esculent, and the end is not yet—many varieties will yet be found which will bring a golden harvest to the fortunate growers, and prove of inestimable value to the world. Directions for planting, cultivating, etc., on each pkt.

Early Thoroughbred Potato.

(Be sure and read the testimonials in
next column—especially Mr. Terry's.)

A new potato, and the best one yet. It would seem that perfection was at last attained. Very early, extra fine-flavored, and without doubt the most tremendous cropper of all. The flesh is clear white, and when baked or boiled breaks open like a snowball—white, dry, and floury. Every planter should at least have the VERY BEST for his own table, and here it is.

The Thoroughbred besides being so early, is very handsome, (see cut from a photograph of an average specimen,) a hardy, strong, and vigorous grower, of superb keeping, and table qualities, and an enormous yielder. In fact all who have tried it consider it

A Perfect Potato in Every Respect.

With extra soil and cultivation it can readily be made to produce 500 bushels or more per acre. New varieties invariably yield the best, and millions of dollars are annually lost by planting old, run-out sorts. I thank good fortune that I have such a valuable acquisition to offer, and every potato grower should be thankful to be able to obtain it on such favorable terms. Mr. Terry was offered \$10.00 a piece for single tubers, and every purchaser of my seed should make an enormous profit on the investment. My seed is genuine—direct from Headquarters, and every tuber I offer is PURE and TRUE. Beware of spurious seed as much of it will be offered by unscrupulous parties. If you want the greatest cropper, the hardiest, absolutely the surest money-maker, and without question the very best table potato ever produced, then you want this greatest of all—

THE EARLY THOROUGHbred POTATO.

Price of Large POTATO EYES

By Mail	Fully Prepaid.
For \$1.00 I will send 100 strong eyes Thoro'bred,	
" 2.00 " " 200 " " "	
" 3.00 " " 300 " " "	
" 5.00 " " 500 " " "	

More at same rate—any quantity desired.

SPECIAL. Above price includes premiums as offered elsewhere. If no premium is wanted I will send 150 large eyes—or 30 whole potatoes—for each \$1.00 remitted.

I have received the most favorable reports from all sections from sending potato eyes. It is much the best and cheapest way to obtain new varieties. I cut the eyes from LARGE potatoes, leaving a good big piece of potato with each eye, one eye being sufficient for a large hill. I send them carefully boxed, and prepaid, with explicit directions for planting and cultivating to secure an EXTRA LARGE yield.

All eyes sent when desired, and warranted to reach

you safely and in good condition for growing.

If preferred I will send 20 whole potatoes for \$1.00, 40 for \$2.00, 60 for \$3.00, etc., prepaid.

WHAT THE MOST NOTED GROWERS SAY.

D. D. Reeves, Genesee, Idaho, says "From \$1.00 worth of Thoro'bred Potatoes obtained from you I raised over 550 lbs. (over 9 bushels) of fine tubers. Your seeds have always given satisfaction."

W. E. Thompson, of Mo. writes:—We dug 119 lbs. of Early Thoro'bred—all grown from one pound planted; one weighed 29 ozs.

Harry N. Hammond, of Mich. the largest grower of seed potatoes in the world says "The new Thoroughbred will certainly MAKE MORE MONEY for those who handle it than any other variety."

From the "Practical Farmer," written by H. F. Smith, the noted potato grower. I planted the new Thoroughbred as a test side by side with the best sorts I had—54 different varieties; and they yielded MORE THAN DOUBLE all the rest, or at the rate of

733 BUSHELS PER ACRE.

They had just the same care and cultivation as given the whole field. I am sure they will make everywhere a wonderful record.

W. J. Manley, Mich. writes:—On 10 rows each 35 rods long, I dug 150 bushel boxes heaped full, of Early Thoroughbreds. I never saw the like before, and everyone who sees them say the same. Their quality is EXCELLENT. They received only ordinary cultivation—and no fertilizer was used.

From the PRACTICAL FARMER, written by T. B. Terry,—the most noted—the most successful—and the man who has made the most money growing potatoes of any in America. He says, "Blood will tell." Yes it will, no matter whether in stock or seed. I planted two tubers weighing one-half pound, of the Early Thoro'breds with a number of other varieties. To make the trial more complete I got two tubers of Early Rose of same size from an old farmers cellar, and planted them by the side of the others. All were planted on average ground and worked precisely as the rest of our field crop. No fertilizer of any sort used.

I was never so surprised in all my life in potato culture, as when I dug those Thoroughbreds. In every hill there were great, large, beautiful potatoes such as I had never seen since the Early Rose first came around, 25 years ago. They yielded just THREE TIMES as much as those from the farmers cellar. The vigor and vitality of the new seed enables it under the same conditions to grow

THREE TIMES AS MANY BUSHELS.

There is a great lesson taught here. Thousands of farmers are using old run-out seed and growing a crop at no profit. You will make a great mistake if you don't change seed occasionally and get the benefit of new blood.

SILVER WATCH GIVEN AWAY.

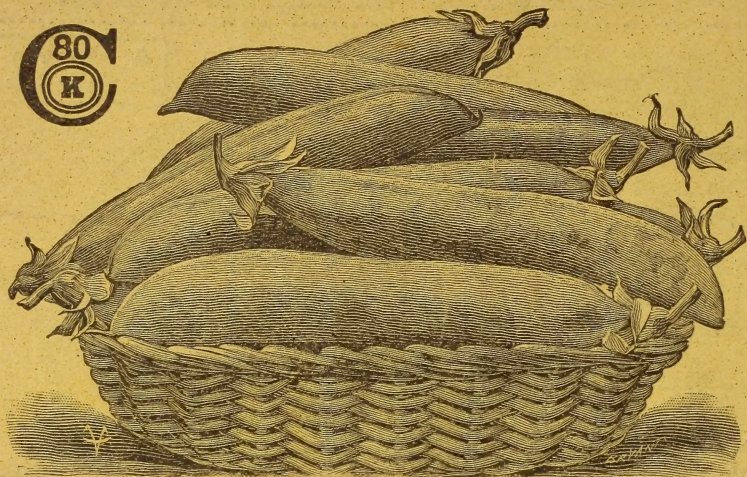

I will give a beautiful watch, solid silver, handsomely engraved, Ladies or Gents size, to the person who will grow the largest number of pounds of potatoes from \$1.00 worth of seed purchased of me this season, (either eyes or whole potatoes) \$5.00 worth of seeds for second largest yield, \$3.00 for third largest, and \$2.00 for fourth. All reports to be sent in by Nov. 1st. Try several plates, \$1.00 worth in each—some of eyes, and some of whole tubers (which you can cut as small as you wish) and you will have a crop to be proud of, and worth many times the small cost. Remember I send valuable directions to enable you to secure an ENORMOUS YIELD.

Friends, I remember your kindness in the past, and will look for your orders soon. Yours, with best wishes always,

NEW EARLY WHITE VELVET OKRA.

Okra is a fashionable Southern vegetable, of the easiest growth, and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled.

The White Velvet is best of all Okras, very early and distinct. The pods are round, smooth, and handsome; much larger than any other

and of superior flavor and tenderness. Very prolific. Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without. Packet 5 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous upright stalk, with fruit well up above the ground. Bears very abundantly, fruit good size, smooth, bright red color, and of superior flavor. A valuable, curious acquisition very ornamental and useful. I am sure all will be pleased with it. YOU CANNOT do me a greater favor than to show my Catalog to your friends, and allow them to use it for sending their orders, and getting up Clubs.

NEW CHINESE GIANT PEPPER.

The Chinese Giant is by all odds the largest and finest of Peppers. It is the grandest sort for salads—stuffed for mangoes—or sliced and served like tomatoes. For market are twice as profitable as any other, as they bring such fancy prices. Plants are stocky habit, about 2 feet high, and loaded with enormous fruits. 22 of these gigantic Peppers have been counted on a single plant. They are very mild, sweet as an apple and ripen early. Every one will want to plant it I am certain.

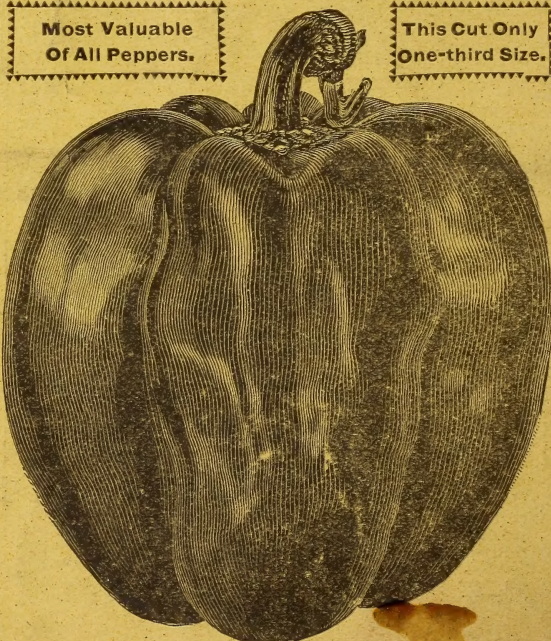

READ THE FOLLOWING FROM THE
EDITOR OF THE RURAL NEW YORKER
TO WHOM A FEW SEEDS WERE SENT FOR TRIAL.

"We grew the Chinese Giant Pepper with much pleasure, and found them veritable monsters. Their highly colored fruit is a pleasant addition to summer salads. The flesh is thick, tender, and sweet, without any burning taste. The plants grew finely, and the immense peppers—often more than 6 inches in diameter and depth make a very handsome show in the garden. The Chinese Giant is earlier than the Ruby King."
